

Sinclair uses public airwaves for free.

In return, it is REQUIRED to serve the public interest. Showing a program that favors one side of the political divide requires it to show a program that supports the other side.

In the past few years many broadcasters are biasing their broadcasts to one political side. This is anti democratic and must stop.

If Sinclair continues this practise, there should be massive objections when it comes time to renew its license.

Thank you for your time.

Val Healey
